48.Land sharing Clause :

Any bidder from a country which shares a land border with India will be eligible to bid in this tender only if the bidder is registered with the competent Authority.

"Bidder" (including the term 'Bidder', 'consultant' or 'service provider' in certain contexts) means any person or firm or company, including any member of a consortium or joint venture (that is an association of several persons, or firms or companies), every artificial juridical person not falling in any of the descriptions of bidders stated hereinbefore, including any agency branch or office controlled by such person, participating in a procurement process.

"Bidder from a country which shares a land border with India" for the purpose of this Order means:

-

- An entity incorporated, established or registered in such a country; or
- A subsidiary of an entity incorporated, established or registered in such a country; or
- An entity substantially controlled through entities incorporated, established or registered in such a country; or
- An entity whose beneficial owner is situated in such a country; or
- An Indian (or other) agent of such an entity; or
- A natural person who is a citizen of such a country; or
- A consortium or joint venture where any member of the consortium or joint venture falls under any of the above

The beneficial owner for the purpose of (iii) above will be as under:

1. In case of a company or Limited Liability Partnership, the beneficial owner is the natural person(s), who. Whether acting alone or together, or through one or more juridical person, has a controlling ownership interest or who exercises control through other means.

Explanation-

- "Controlling ownership interest" means ownership of or entitlement to more than twenty-five percent of shares or capital or profits of the company;

- "Control" shall include the right to appoint majority of the directors or to control the management or policy decisions including by virtue of their shareholding or management rights or shareholders agreements or voting agreements;
- In case of a partnership firm, the beneficial owner is the natural person(s) who, whether acting alone or together, or through one or more juridical person, has ownership or entitlement to more than fifteen percent of capital or profits of the partnership;
- In case of an unincorporated association or body of individuals, the beneficial owner is the natural person(s), who, whether acting alone or together, or through one or more juridical person, has ownership of or entitlement to more than fifteen percent of the property or capital or profits of such association or body of individuals;
- Where no natural person is identified under (1) or (2) or (3) above, the beneficial owner is the relevant natural person who holds the position of senior managing official;
- In case of a trust, the identification of beneficial owner(s) shall include identification of the author of the trust, the trustee, the beneficiaries with fifteen percent or more interest in the trust and any other natural person exercising ultimate effective control over the trust through a chain of control or ownership.
- An Agent is a person employed to do any act for another, or to represent another in dealings with third person.

49. Relationship between parties: This RFP/tender document is on a Principal to Principal basis and does not create any employer - employee relationship. Nothing contained in this RFP or any subsequent agreement or otherwise shall be deemed to create any partnership, joint venture, employment or relationship of principal and agent, or master and servant between the parties hereto or any of their respective employees, affiliates, subsidiaries, related business entities, agents, contractors or subcontractors or to provide either party with any right, power or authority, whether express or implied, to create any duty or obligation on behalf of the other party.

50. Non-solicitation Clause:

Both the parties agree not to hire, solicit, or accept solicitation (either directly, indirectly, or through a third party) for their employees directly involved in this tender document/Agreement during the period of the tender document/Agreement and one year thereafter, except as the parties may agree on a case-by-case basis. The parties agree that for the period of this tender document/Agreement and one year thereafter, neither party will cause or permit any of its directors or employees who have knowledge of the agreement to directly or indirectly solicit for employment the key personnel working on the project contemplated in this proposal except with the written consent of the other party.

The above restriction would not apply to either party for hiring such key personnel who (i) initiate discussions regarding such employment without any direct or indirect solicitation by the other party (ii) respond to any public advertisement placed by either party or its affiliates in a publication of general circulation or (iii) has been terminated by a party prior to the commencement of employment discussions with the other party.

51. Limitation of Liability:

- i. Bidder's aggregate liability in connection with obligations undertaken as a part of the RFP regardless of the form or nature of the action giving rise to such liability (whether in contract, tort or otherwise), shall be at actual and limited to the Total Order Value.
- ii. Bidder's liability in case of claims against the Bank resulting from Misconduct or Negligence of bidder, its employees and Subcontractors or from infringement of patents, trademarks, copyrights or such other Intellectual Property Rights or breach of confidentiality obligations shall be unlimited.
 - a. "Misconduct" means any act or omission of a party which is willfully intended to harm the interests of the other party, provided however, that willful misconduct does not include ordinary negligence, an error of judgement or mistake of a person.
 - b. "Negligence" means an indifference to, and a blatant violation of a legal duty with respect to the rights of the others, being a conscious and voluntary disregard of the need to use reasonable

care, which is likely to cause foreseeable grave injury or harm to persons, property, or both. Gross negligence involves conduct that is extreme, when compared with ordinary negligence. A mere failure to exercise reasonable care shall not be a Gross negligence.

- iii. Bank shall not be held liable for and is absolved of any responsibility or claim / litigation arising out of the use of any third party software or modules supplied by bidder as part of procurement under the RFP.
- iv. Under no circumstances Bank shall be liable to the selected bidder for direct, indirect, incidental, consequential, special or exemplary damages arising from termination of this Agreement, even if Bank has been advised of the possibility of such damages, such as, but not limited to, loss of revenue or anticipated profits or lost business.
- v. It is expressly agreed between the Parties that for any event giving rise to a claim, Bank shall have the right to make a claim (including claims for indemnification under the procurement in this RFP) against bidder.

52. Protection of Reputation:

It is agreed between the parties that Bank, being in service industry, its reputation, goodwill and positive brand image is of prime importance. Bank has a right to impose penalty for the reputational loss on account of business disruption if Bidder fails to perform its obligations in the best possible manner and/ or fails to maintain quality of service. The amount of penalty will be assessed by the Bank in the manner as it deems fit and the said amount can be deducted from the amount payable to the company against its services. Bidder undertakes and agrees to indemnify the Bank against such losses suffered. Reoccurrence of such incidence may lead to termination of contract by the Bank without any further notice.

53. Representation and Warranties: Bidder warrant and represent that:

- (a) It has full power and authority to enter into this Agreement;
- (b) It shall be responsible for its corporate and personnel taxes if any, and shall indemnify and hold harmless Bank for any liability in this connection;

- vi. All faulty parts, consumable parts (sensors/limit switches/contacts/hydraulic parts/hydraulic oils etc.) having reduced capability as per specification shall be replaced by the contractor at their cost during defect liability & comprehensive maintenance Period.
- vii. The installation of scaffolding for installation of Lifts shall be in contractor's scope. Installation of separator channels (if needed) shall be in contractor's scope. Installation of Load hook shall be in contractor's scope.
- viii. Supply of machine beams hitch beams and connected cleats bolts, plates etc. that are required in the machine room and other places for the lift, landing door frames and doors.
- ix. All preparatory work such as scaffolding, builder's work, hoist way wiring, buffer support channels and pit ladder landing door frames etc.
- x. All necessary, Mechanical and electrical works connected with the Design, manufacture, supply at site, painting, testing and commissioning of the lift inclusive of statutory approvals.
- xi. Contractor shall also take adequate steps to block the entrances to the lift shaft at various levels/ floors to prevent possible accidents.
- xii. Dismantled material shall be removed from site of work at regular intervals after notifying the Bank so as to preserve sufficient working space for erection of new lifts.
- xiii. It will be Contractors responsibility to display adequate sign boards at respective places during Dismantlement and erection process.
- xiv. The existing lift shaft will have to be made use of and as such major civil alteration work will not be possible. Required entrance modification to suit the lift door frame to be installed shall be carried out by the contractor itself. The connections between lift frame and the respective building / columns shall be provided by the Contractor. The equipment shall be designed keeping in view the provisions of the statutory regulations and safety codes in force in the locality of installation. All

such minor civil works like chipping, grouting, drilling, etc. for fixing guide-rails and other accessories are to be executed by the supplier only.

- xv. Contractor shall ensure that minimum amount of assembly is necessary at site. Site assembly shall be avoided as far as possible.
- xvi. The contractor shall forthwith comply with and duly execute any work comprised in such Employer's instruction, provided always that verbal instructions, directions and explanations given to the contractor's or his representative upon the works by the Employer shall if involving a variation be confirmed in writing to the contractor/s within 7 days.
- xvii. No work for which rates are not specifically mentioned in the priced schedule of quantities, shall be taken up without written permission of the Employer.
- xviii. Regarding all factory made products, they shall be manufactured as per their respective **IS code updated** and all test undertaken at factory.

9.3 Workmanship and Performance warranty:

- i. The materials used shall be new and best of its kind available and shall conform to standards as mentioned in the technical specification.
- ii. The supplier shall guarantee satisfactory performance of equipment/ system as per relevant guidelines.
- iii. The guarantee shall also cover faulty design/ materials/ workmanship. All rectification or replacement under guarantee shall be done by the supplier free of cost.
- iv. The conditions regarding guarantee of equipment shall also be governed by the relevant clauses of general commercial conditions.
- v. Permanent, non-rusting metal tag shall be affixed to the equipment with tag number.
- vi. The Bidder shall furnish the procedure proposed for conducting performance guarantee test; for review by purchaser.
- vii. The Bidder shall ensure installation of all electrical equipment by purchaser's approved licensed electrical Contractors and subsequent approval by electrical inspector and other competent authority.

9.4 Scope of Works (Civil) :

- i. The civil works shall consist of provisioning of the Lift shaft with necessary
 - Foundation Works.
 - Lift Shaft Erection & necessary painting.
 - ACP cladding works to cover the shaft from 03 sides.
 - **Door modification works/Granite door frame with 15 -20 cm collars at main entry followed by Granite door frame with 5 cm collars at other lift opening entry.**
- ii. Design, Engineering & preparation of detailed drawings & layout plan of all the necessary civil works towards preparation of Lift shaft with MS structure for installation of lift.
- iii. Liaisoning works towards approval of Lift shaft in sanctioned plan from Pune Municipal Corporation.
- iv. The contractor shall provide Structural Stability Report by Licensed Structural Consultant for the Lift shaft with the proposed Lift Mechanism during drawing submission & post work completion.
- v. The contractor shall prepare the site for installation of Lift along with all the necessary Civil Works. Due care to be taken while installation causing minimum alterations to RCC. Slab cutting permission shall be taken from Bank before work execution. Strengthening of slab (if required) repairs/ waterproofing/ whitewash of duct (if required) shall be done by Bank. All Civil works towards installation of lifts ie. door modification, chipping, installation of support beams/bracings etc. all complete shall be in contractor's scope. All civil work like whitewashing of duct, and granite works at door shall be in contractor's scope.

9.5 Work Quality (Mechanical Works):

- i. The passenger elevator shall be of latest design having directional group collective control with or without attendant. Digital indicators/LED's display and illuminated buttons shall be provided

in the car and at the landings, as per technical specification. The car should be accommodated in the elevator shaft and elevator pit within the dimensions recommended by relevant standards and enclosed drawing. (in the present case, within the dimension of the existing lift well)

- ii. The elevator shall be designed in accordance with the latest edition of IS **1860-1980 and IS: 4666-1980** and other relevant specifications and subject to any modifications and recruitments specified hereinafter.
- iii. Safe access for maintenance and removal of all mechanical and electrical parts shall be ensured.
- iv. All parts requiring replacement or inspection or lubrication shall be easily accessible without the need for Dismantling of other parts/ equipment. All electrical cables shall be laid such that they are not liable to damage and can be easily inspected and maintained.
- v. All machinery or equipment included under this specification shall be equipped with safety devices and clearance to comply with recognized standards and purchaser's requirement.
- vi. Difference in levels of the car floor and landing, shall be within + or -5 mm.
- vii. Welding shall be carried out as per relevant IS.
- viii. To relieve the load on the hoisting mechanism, the weight of the cage shall be balanced with a suitable counter weight connected by ropes with the drum of the hoisting machine and the cage.
- ix. Suitable lubrication system shall be provided for guide rails as well as for other items.
- x. The hoist shall have adjustable self-aligning hitches.
- xi. Steel T- Guards shall be provided for the car and the counterweight. The weight shall be guarded/ protected by means of wire mesh cage for safe operation.
- xii. Spring buffers shall be provided as a means of stopping the car and counter weight at the extreme limits of travel. Buffers in the pit shall be mounted on steel channels which extend between both the car and the counter weight guide rails.

9.6 PAINTING

- i. General Service painting – This includes structures, plate works, piping, ducting and machinery of mechanical nature (except motors, resistors, panels, switch gears etc.)
- ii. All parts of the elevator shall be thoroughly cleaned of all mild scale, rust and foreign materials by appropriate method of cleaning such as solvent cleaning, hand tool and power tool cleaning, flame cleaning, blast cleaning etc. After that, all parts including frames, gear boxes etc., shall be sand blasted as per STANDARDS.
- iii. All parts inaccessible after assembly shall be painted before the assembled while paint is still wet. All parts of the elevator shall be painted at shop with one primer coat of 75 micron thick inorganic zinc silicate primer.
- iv. After erection of the elevator at site, damaged areas shall be power tool cleaned and touched up with 30 microns thick of zinc rich epoxy primer.
- v. Then the complete elevator shall be painted with 1 intermediate coat of 100 microns thick high build Iron Oxide paint.
- vi. Subsequently two final coats of 35 microns thick of aliphatic polyurethane finish Paint of approved colour shall be applied.
- vii. Interior of all gear housing shall be painted with oil resistant paint after sand blasting and acid cleaning.
- viii. All machine pads bearing surfaces on structure or housing shall be painted with white lead.
- ix. Switch Board/ Control panel painting- This includes fabricated sheet metal items namely electrical control panels, switch boards, control disk, cabinets etc.
- x. Mild scale, rust etc., shall be removed by pickling in a bath of dilute Sulphuric, Hydrochloric or Phosphoric acid, with or without heating, followed by thorough rinsing by fresh water to remove acid traces. Pickling in Sulphuric acid may be followed by dipping in dilute Phosphoric acid containing iron phosphate. Prior to pickling heavy deposits of oil, grease, soil and other foreign matters shall be removed by solvent cleaning.
- xi. The cleaned surfaces shall be given a phosphate coating consisting of thin layer of zinc, iron or manganese phosphate deposited either by immersion or power spray. The coating weight shall not be less than 5 gm/sq mm.

- xii. The phosphate coated surfaces shall be finish painted with two coats of synthetic epoxy paint. The interior of panel shall be egg shell white in color and outside color shall be approved by Bank. The total dry film thickness of the finish coats shall not be less than 50 microns.
- xiii. The equipment shall be power tool cleaned off dust, rust, grease, burrs, weld splatter and loose mill scale and sand blasted as per Swedish Standard SA 2 ½.
- xiv. The equipment shall be painted with two primer coats and followed by two finish coats of epoxy paint. The minimum DFT of each primer and finish coat shall be 25 microns and 35 microns respectively. Colour scheme for finish coats shall be approved/ furnished later. The fasteners supplied with equipment shall not be painted. The same shall be sent with anti-rust compound applied.
- xv. The quality of paint and colour scheme of finish coats shall be as approved by the Bank.

9.7 Work Quality (Electrical Works): The scope of supply shall include all the electrical equipment/ items required for smooth and efficient operation of elevator. The scope includes the following:

- i. The elevator electrics such as protective switch gear, motors, Hydraulic control panels, car operating panels, brakes, limit switches, cables, lighting of car/ cage, push buttons, emergency switch, signaling devices ,hydraulic pressure pump and other necessary equipment required for efficient operation of the elevator.
- ii. Complete lighting (LED Light fitting) of elevator shaft, car and well etc.
- iii. Earthing point.
- iv. All sundry erection materials required for installation and wiring of electrical equipment and for cable laying.
- v. Tapping of Power cable circuit from main Switchgear panel/Power distribution Board to LIFT Incomers with proper cable laying on Tray & its fixing with cover tray as per prescribed IS standards/CPWD manual pertaining to Lift section.
- vi. All Statutory clearances.
- vii. The equipment offered shall be suitable for trouble free and efficient service in the following site conditions: Ambient temperature: 45 degree C (max). Humidity: 100%; both not occurring simultaneously.
- viii. The electrical & hydraulic equipment shall comply with the latest revision of relevant standards and wherever such Indian Standard is not available, International codes and practices shall be followed. The equipment shall be dust and water proof.
- ix. Electrical & hydraulic equipment shall conform to latest Indian electricity rules and regulations and the statutory requirement of Government of India and the Government of State as regards to the safety requirement, earthing and other essential provisions specified therein.
- x. The materials used and the equipment supplied shall be new, reliable and of the class most suitable for the purpose for which they are intended. The equipment designed and the installation shall allow easy access to facilitate inspection, maintenance and repairs.
- xi. Test Certificates of each equipment shall be submitted before installation of each equipment.
- xii. The power shall be made available by the Bank on the incoming side of the switch board in the machine room at 415V + 10%, 50 HZ (as per Electricity board voltage), 3 phases for each elevator (as per requirement) . The short circuit level of the power supply system shall be taken as 35 KA symmetrical at 415 volts, 50 HZ and the equipment shall be designed for this condition. For lighting, supply will be made available in elevator machine room at 230 V Single phase.
- xiii. The operating voltage for control supply shall be indicated by the Bidder.
- xiv. The control panels to be provided in the machine room shall be suitable for floor mounting. This shall be fabricated from steel sheet of 2mm thickness. The bottom most equipment shall be mounted at least 380 mm above the floor level of the panel. (Any alteration in the level of pit will be carried out by the purchaser.)

- xv. The layout of components in control panel shall be so as to provide adequate safety clearances and ease of operation and maintenance. Panel shall have IP: 21 degree of enclosure.
- xvi. The minimum rating of the isolating switch and contactor shall be 63A and 32 A or 125% of the full load current of the drive, whichever is higher.
- xvii. The switches shall be suitable for AC 23 duty. The contactor shall be suitable for AC3 or AC4 duty as applicable. The overload relay shall have in built single phasing protecting.

8.9 It shall be possible to control the elevator from inside the cabin as well as from the shaft car. Hydraulic cylinder piston Controller shall be state of the art controller to control starting/ stopping and arrest the speed of the lift and also to automatically apply brake if any of the safety devices operate or the hydraulic power fails due to any cause. Door operation shall be automatic with safety interlocks.

8.10 Provision shall be made for a safety gear which shall operate in the event of free fall or over speeding of elevator car. This safety gear, while freezing the cabin mechanically to the guides, shall also interrupt the control supply through a limit switch.

8.11 The over pressure hydraulic power pack shall have a governor switch to interrupt the control supply in the event of over speeding & lift fail.

8.12 In addition to the terminal limit switches for the final landings, pack up emergency limit switches shall be provided for smooth hydraulic lifting. In the event of these switches operating due to over travel, it shall be possible to operate elevator only after manually resetting the backup limit switches. For this purpose, these switches shall be installed in accessible locations for easy manual resetting.

8.13 Additional provision shall be made for opening of the landing door in case of emergency by means of a special key. The landing doors shall be so designed that their closing and opening is not likely to injure a person.

8.14 Provision shall be made to prevent the opening of any landing door when the car is passing that zone in response to a call from another landing.

8.15 An automatic floor leveling device shall be incorporated in the elevator control to ensure leveling accuracy within the specified limits.

8.16 There shall be a provision of initiating audible and visible signals from inside the cabin in the event of elevators getting stuck between the landings due to break down or power failure. The source of supply for these signaling devices shall be through a suitable battery source with its own charger unit. A push button and a bell in the cage and a bell in the control station shall be provided along with battery. Emergency lighting fed from battery source shall also be provided in the cage.

8.17 The lift shall be provided with battery operated automatic rescue device to land at the nearest floor and the doors open during the power failure.

8.19 Call indicators to inform the attendant, under attendant mode that the elevator car is required at a certain floor shall be provided.

8.20 Indicators to show the position of elevator car and the direction in which it is travelling shall be provided both inside the cabin and at each landing.

8.21 Bidder shall furnish typical control schemes and details of controls offered.

- The elevator cars, elevator shafts and elevator well shall be adequately illuminated by electric light. Elevator cars shall also be provided with ventilating fan.
- The cables used in the elevators installation shall conform to latest revision of IS 4289.
- The circuit which supplies current to the hydraulic motor shall not be included in any multicore cable used in connection with the control/ safety devices/ signaling equipment.
- There shall be a provision for initiating audible and visible signals including telephone cable.
- A trailing cable which incorporates conductors for the control circuit shall be separate and distinct from that which incorporates lighting and signaling circuits. All control and signaling cables shall have stranded copper conductor of minimum size 2.5 sq.mm. 20% spare cores shall be provided in each control/ signaling cable. All power cable shall be of 650/ 1100 V grade PVC insulated unarmored with aluminium conductor of appropriate size.
- Earthing of all electric equipment shall be done as per relevant BIS, latest IE rules and statutory regulation of the concerned department/ unit of Government of Maharashtra

8.22 All statutory approvals from commencement to commissioning of elevators shall be obtained by the contractor from Inspector of Lift and any other concerned statutory authorities & also Lift clearance certificate/Test certificate with License of Bank shall be made available from Govt. concerned office duly certified from Lift inspector/concerned officer.

Note: The above mentioned interior specification are of minimum requirement. However, the OEM who are having equivalent or higher specification can quote considering Bank's minimum specification.

- The above said technical specification are minimum. Bidder are free to provide additional specifications as per their product at competitive price. Bank shall prefer with higher technical specification features pertain to lift.
- This specification shall be read in conjunction with General conditions of contract as applicable for this project.
- The Bidder shall design the equipment considering the site conditions. After award of contract no claim for extra payment will be entertained.
- All fittings, equipment's, units. Assemblies and accessories, hardware, foundation bolts, terminal lugs for electrical connections, cable glands, hydraulic. Junction box and items which are useful and necessary for efficient assembly in operation and installation shall be deemed to have been included in the scope of work.

8.26 INSPECTION & TESTING OF LIFTS: The bidder based on the broad outline inspection procedure indicated in this Section shall finalize with Bank prior to the award of contract, the detailed procedure for inspection, testing (at factory/ site) along with the schedule of time and period of individual activities.

- The Contractor shall submit relevant test Certificates for all electrical equipment, cables. Following are the guidelines for shop testing.
 - All motors to be routine tested as per IS 325-1978.
 - All control panels/ MCCB shall be routine tested as per IS: 8623 Part I & II- 1980.
 - Similar test Certificates shall be submitted in respect of items like wire ropes, chains, couplings, gears, gear boxes, rope drums, pulleys, shafts etc.
 - Contractor shall give adequate notice to the Bank in regard to shop testing of major items like motors, etc. in order to enable the Bank to witness the tests if required by the Bank.,
- Work shall be carried out in accordance with prevalent/ relevant standards like Indian Electricity Act, IEE rules, Lift Act, etc. It will be the responsibility of the firm to arrange for inspection by the statutory authorities at the appropriate time, obtain necessary Certificates and handover the same to the Bank for record. The statutory fees (if any) will be borne by the employer or will be reimbursed against production of receipt.

8.27 INSPECTION AT SITE: These tests after erection of the lift in plant shall comprise of the following:

- The supplier's tests.

- ii. Acceptance tests/ performance guarantee tests.
- o After the lift are erected all equipment and machinery shall be tested as required by the Bank/ inspector in line with IS 4666. The lift shall be run without load and the adjustments shall then be completed.
 - o All tests shall be carried out in the presence of the Bank/ Inspector and any corrections found necessary shall be approved by the Bank/ inspector and shall be carried out with minimum of delay The supplier shall be responsible for producing all necessary working sketches and drawings to the approval of the Bank/ inspector

iii. **The performance of lifts after erection shall be tested as follows:**

a. **PERFORMANCE GUARANTEE TEST:**

- The elevators after completion of erection shall be performance tested to meet the following acceptable limits of design parameters.
- SPEED: 1.0m/sec (1.00 METRE PER SECOND) with LANDING ACCURACY within +or- 5mm
- In case of unit capacities and design parameters guaranteed by the Contractor are not established during the performance guarantee testing, the Bank at his discretion may reject or accept the elevator after assessing its technical suitability. The Contractor shall be given 2 months' time after commissioning for rectification to achieve the necessary design parameters, beyond which the employer may reject.

b. **ELECTRICAL/HYDRAULIC TESTS:**

- Visual check for adequacy & completeness of scope of supply.
- Insulation test on electrical equipment wiring.
- Satisfactory operation of controllers, limit switches, safety devices etc.
- Correctness of all circuits and interlocks.
- Satisfactory operation of electric lift for all motions/ stops.

c. **ACCEPTANCE TEST:**

- After supplier's tests are completed, an acceptance test shall be carried out by the Bank's operator, and if accepted, the elevator shall be handed over to the Bank.
- **Operation & capacity tests will be conducted as specified in IS 4666 and as specified above. Insulation and other tests applicable to the electric lift shall be done as per relevant IS.**
- The date(s) for operation and capacity tests shall be set by the Bank/ inspector and the supplier shall be informed of the date (s) in advance. The supplier shall be represented at the tests by a qualified engineer or erection superintendent familiar with erection and commissioning of the elevator.

8.28 COMPREHENSIVE MAINTENANCE PERIOD:

- i. The contractor shall maintain the Lift in good working condition during the 5 Year Comprehensive Maintenance Period (after end of 01 year defect liability period) by conducting monthly, quarterly & annual maintenance as per detailed scope of work of tender.
- ii. All faulty parts, consumable parts having reduced capability as per specification shall be replaced by the contractor at their cost during defect liability & comprehensive maintenance period.
- iii. **SLA for Annual Maintenance Contract of Lift :** This contract agreement shall remain in force from the date of commencement i.e. till the expiry of the contract (including extension if any). It shall be open to user to terminate this agreement any time during its period by giving one month notice to the contractor, in writing.
- iv. contractor will provide support on calls lodged by the user
 - a. Support should be available on 24 x 7 basis.

- b. The complete support comprises of comprehensive maintenance facility of Lift during Comprehensive Maintenance Period.
- c. **Uptime guarantee:** The agreement stipulates that contractor shall maintain the system with uptime of 98%. The uptime will be calculated on yearly basis.
- d. A copy of agreement between service provider & OEM should be provided to user.
- e. Maintenance Services: contractor shall provide maintenance services under this agreement for the Lift on par with OEM's service standard.
- v. **The maintenance services shall include the following: -**
- i. **Corrective Maintenance:** Any system failure will be attended by contractor's engineer and if necessary by their specialists
 - ii. **Preventive Maintenance**
 - vi. Contractor will check the health of each Lift under this contract. The down time required for Preventive Maintenance will be communicated by contractor. Contractor will prefer to execute preventive maintenance work during non-business hour.
 - vii. **Spares Availability/ Support from OEM :** contractor shall have a back-to-back Business Critical Support arrangement with the OEM partner for spares and escalation support. Contractor shall also have a formal arrangement with OEM for any technical support that may be required on the hardware. OEM letter for support is to be submitted against each RC.
 - viii. **Response Time for Call Centre Location:**
 - 2 Hour Response Time (24x7)
 - 4 Hours Resolution Time (Including Response Time) for Minor Issues.
 - 08- 10 Hours Resolution Time (Including Response Time) in case spare is required or in case of Major issues.
 - ix. **Reporting:** The Bidder shall prepare a monthly Uptime Summary Report in the User prescribed format. The contractor will enclose uptime report along with the bill for certification.
 - x. **Penalty for SLA Non-Compliance:** In case the uptime commitment is not met, same shall attract a penalty @ Rs. 1000 per day or part thereof. The penalty amounts shall be recovered from the payments due to the contractor. A sample calculation is given below: If the actual uptime achieved in 97.5%, penalty amount shall be: Rs. 1000 x {(98.0 - 97.5) / 100 x 365} or Decision of Employer

10. INTEGRITY PACT

General: This pre-bid pre-contract Agreement (hereinafter called the Integrity Pact) is made on ____ day of month of _____ 2024, between on one hand, Bank of Maharashtra through authorized official Shri. _____, Asst. General Manager(Civil), Corporate Services Department, Bank of Maharashtra 1501, Shivajinagar, Pune (hereinafter called the "BANK", which expression shall mean and include unless the context otherwise required, his successors in office and assigns) of the First Part and M/s _____ represented by Shri. _____ Proprietor (herein called the "BIDDER" which expression shall mean and include unless the context otherwise requires his successors and permitted assigns) of the Second Part.

WHEREAS the BANK proposes to carry out "**SUPPLY, INSTALLATION, TESTING & COMMISSIONING OF 01 NOS. 08 PASSENGER LIFT (Hydraulic based) AT PUNE EAST ZONAL OFFICE BUILDING BANK OF MAHARASHTRA PUNE**" (said work) and the BIDDER is willing to offer/has offered for the aforesaid work and

WHEREAS the BIDDER is a private company/public company/Government undertaking/partnership/registered export agency/LLP, constituted in accordance with the relevant law in the matter and the BUYER is Corporate Services Department of Bank of Maharashtra

NOW, THEREFORE,

To avoid all forms of corruption by following a system that is fair transparent and free from any influence/ prejudiced dealings prior to, during and subsequent to the currency of the contract to be entered into with a view to

Enabling the BANK to obtain the desired said Equipment/product/services at a competitive price in conformity with the defined specifications by avoiding the high cost and the distortionary impact of corruption on public procurement, and

Enabling BIDDER to abstain from bribing or indulging in any corrupt practice in order to secure the contract by providing assurance to them that their competitors will also abstain from bribing and other corrupt practices and the BANK will commit to prevent corruption, in any form by its officials by following transparent procedures.

The parties hereto hereby agree to enter into this Integrity Pact and agree as follows:

Commitments of the BANK:

1.1. The BANK undertakes that no officials of the BANK, connected directly or indirectly with contract will demand, take a promise for or accept directly or through intermediaries any bribe, consideration gift reward favor or any material or immaterial benefit or any other advantage from the Bidders either for themselves or for any person, organization or third party related to the contract in exchange for an advantage in the bidding process, bid evaluation contracting or implementation process related to the contract.

1.2. The BANK will, during the pre-contract stage, treat all BIDDERS alike, and will provide to all BIDDERS the same information and will not provide any such information to any particular BIDDER which could afford an advantage that particular BIDDER in comparison to other BIDDERS.

1.3. All the officials of the BANK will report to the appropriate Government office any attempted or completed breaches of the above commitments as well as any substantial suspicion of such a breach.

2. In case any such preceding misconduct on the part of such official(s) is reported by the BIDDER to the BANK with full and verifiable facts and the same is prima facie found to be correct by the BUYER, necessary disciplinary proceedings or any other action as deemed fit, including criminal

proceedings may be initiated by the BUYER and such a person shall be debarred from further dealings related to the contract process. In such a case while an enquiry is being conducted by the BANK the proceedings under the contract would not be stalled.

COMMITMENTS of BIDDERS

3.
