

### BASEL III – PILLAR 3 DISCLOSURES FOR THE YEAR ENDED 31.03.2020

RBI issued Basel III guidelines, applicable w.e.f. 01.04.2013. These guidelines initially provided a transition schedule for Basel III implementation till 31.03.2019. RBI has extended the transition period for implementing the last tranche of 0.625% under the Capital Conservation Buffer (CCB) up to September 30, 2020. Upon full implementation i.e. as on October 01 2020, Basel III guidelines target minimum capital to risk-weighted assets ratio (CRAR) would be 11.50%, minimum Common Equity Tier -1 ratio would be 8.00% and minimum Tier 1 ratio would be 9.50%. Minimum capital required to be held by Bank for the year ended 31<sup>st</sup> March 2020 is 10.875% with minimum CET 1 (incl. CCB) of 7.375%.

Basel III framework consists of three mutually reinforcing pillars:

- (i) Pillar 1: Minimum Capital Requirement (Credit Risk, Market Risk and Operational Risk)
- (ii) Pillar 2: Supervisory Review and Evaluation Process
- (iii) Pillar 3: Market Discipline

Market Discipline (Pillar 3) consists of set of disclosures on capital adequacy and risk management framework of Bank. These disclosures have been set out as under:

**TABLE DF-1: SCOPE OF APPLICATION**

Name of head of the banking group to which framework applies: **BANK OF MAHARASHTRA**

**(i) Qualitative Disclosures:**

Name of Entity /Country of incorporation	Whether entity is included under accounting scope of consolidation (yes / no)	Method of consolidation	Whether entity is included under regulatory scope of consolidation (yes / no)	Method of consolidation	Reasons for difference in method of consolidation	Reasons if consolidated under only one of the scopes of consolidation
The Maharashtra Executors & Trustee Co. Pvt Ltd (METCO)/ India	Yes	Line by Line basis as per AS-21 issued by ICAI	No	NA	NA	Entity is not a banking company, hence outside the purview of regulatory consolidation Capital Investment is deducted from CET1 capital of Bank.
Maharashtra Gramin Bank (MGB)/ India	Yes	Equity method Basis as per AS-23 issued by ICAI	No	NA	NA	Entity is RRB, an associate, hence outside the purview of

Name of Entity /Country of incorporation	Whether entity is included under accounting scope of consolidation (yes / no)	Method of consolidation	Whether entity is included under regulatory scope of consolidation (yes / no)	Method of consolidation	Reasons for difference in method of consolidation	Reasons if consolidated under only one of the scopes of consolidation
						regulatory consolidation Investment is risk weighted at 250%.

**a. List of group entities considered for consolidation**

1. The Maharashtra Executors & Trustee Company Private Limited (METCO)
2. Maharashtra Gramin Bank (MGB)

**b. List of group entities not considered for consolidation both under the accounting and regulatory scope of consolidation**

Name of the entity / Country of incorporation	Principle activity of the entity	Total Balance sheet equity (as stated in the accounting balance sheet of the legal entity)	% of bank's holding in the total equity	Regulatory treatment of bank's investments in the capital instruments of the entity	Total balance sheet assets (as stated in the accounting balance sheet of the legal entity)
NIL					

**(ii) Quantitative Disclosures**

**c. List of group entities considered for consolidation (accounting)**

(Amount in Rs million)

Name of the entity / Country of incorporation	Principle activity of the entity	Total Balance sheet equity (as stated in the accounting balance sheet of the legal entity)	Total balance sheet assets (as stated in the accounting balance sheet of the legal entity)
The Maharashtra Executors & Trustee Co. Pvt Ltd (METCO)/ India	Trusteeship	51.46 (BOM share 100%)	181.32
Maharashtra Gramin Bank (MGB)/India	Banking	4820.06 (BOM share 35%)	125002.64

**d. The aggregate amount of capital deficiencies in all subsidiaries which are not included in the regulatory scope of consolidation i.e. that are deducted:**

There is no capital deficiency in the subsidiary of Bank which is not included in regulatory scope of consolidation as of March 31, 2020.

**e. The aggregate amounts (e.g. current book value) of the bank's total interests in insurance entities, which are risk weighted**

Name of the insurance entity / Country of incorporation	Principle activity of the entity	Total Balance sheet equity (as stated in the accounting balance sheet of the legal entity)	% of bank's holding in the total equity / proportion of voting power	Quantitative impact on regulatory capital of using risk weighting method versus using the full deduction method
Bank is not having any subsidiary having insurance business.				

**f. Any restrictions or impediments on transfer of funds or regulatory capital within the banking group**

There is no restriction or impediments on transfer of funds or regulatory capital within banking group as of March 31, 2020.

**TABLE DF – 2: CAPITAL ADEQUACY**

**Qualitative Disclosures**

**a. Capital Management**

Bank has a process for assessing its overall capital adequacy in relation to Bank's risk profile and a strategy for maintaining its capital levels. Process provides an assurance that Bank has adequate capital to support all risks inherent to its business. Bank actively manages its capital to meet regulatory norms by considering available options of raising capital.

**Organisational Set-up:**

Capital Management is administered by Financial Management and Accounts Department in co-ordination with Integrated Risk Management Department under the supervision of Board of Directors. Bank has also formed Capital Planning Committee to provide guidance and assess the capital position on quarterly basis.

**Internal Assessment of Capital:**

Bank's Capital Management framework includes a comprehensive Internal Capital Adequacy Assessment Process (ICAAP) conducted annually which determines adequate level of capitalisation for Bank to meet regulatory norms and current and future business need, including under stressed scenarios. ICAAP encompasses capital planning for two years time

horizon, after identification and evaluation of significance of all risks that Bank faces, which may have an adverse material impact on its financial position. Bank considers following Pillar II risks it is exposed to in the normal course of its business and considers them for capital planning:

• Liquidity Risk	• IRRBB
• Risk of under-estimation of credit risk under standardized Approach	• Risk of decline in collateral values of Credit Risk Mitigants
• Credit Concentration Risk	• Settlement Risk
• Reputational Risk	• Currency Induced credit Risk
• Strategic Risk	• Legal Risk
• IT Risk	• Group Risk
• Pension Obligation	• Country Risk
• Compliance Risk	• Securitization Risk
• Model Risk	• Capital Risk

Bank has implemented the scorecard for IT Risk, Reputational Risk and Strategic Risk. Bank periodically assesses and refines its stress tests in an effort to ensure that stress scenarios capture material risks as well as reflect possible extreme market moves that could arise as a result of business environment conditions. Stress tests are used in conjunction with Bank's business plans for the purpose of capital planning.

#### Monitoring and Reporting:

The Board of Directors of the Bank monitors capital adequacy levels of Bank. An analysis of the capital adequacy position and risk weighted assets and an assessment of various aspects of Basel III on capital and risk management are undertaken by Board on a quarterly basis

#### Quantitative Disclosures

##### b. Capital Requirement

Bank's capital requirements have been computed using Standardized Approach for Credit Risk, Standardized Duration Method for Market Risk and Basic Indicator Approach for Operational Risk. Minimum capital required to be held by Bank for the year ended March 31, 2020 is 10.875% with minimum CET 1 (incl. CCB) of 7.375% for credit, market and operational risks is given below:

(Amount in Rs million)

Sr. No.	Particulars	Amount	Amount
<b>(A)</b>	<b>Capital Required for Credit Risk</b>		
(i)	Portfolios subject to Standardized Approach	93085.65	
(ii)	For Securitization Exposure	0.00	
	<b>Total capital charge for credit risks under standardized approach (i+ii)</b>		<b>93085.65</b>

Sr. No.	Particulars	Amount	Amount
<b>(B)</b>	<b>Market Risk</b>		
(i)	Interest Rate Risk	3707.47	
(ii)	Equity Risk	881.73	
	<b>Total capital charge for market risks under standardized duration approach (i+ii+iii)</b>		<b>4589.20</b>
<b>(C)</b>	<b>Capital Charge for Operational Risk</b>		
	<b>As per Basic Indicator Approach (BIA)</b>	<b>7473.19</b>	
	<b>Under The Standardized Approach (Parallel run)</b>	<b>7368.74</b>	
<b>(D)</b>	<b>Capital Ratios</b>		<b>Standalone (In %)</b>
	<b>Common Equity Tier 1 Capital Ratio (Incl CCB)</b>		<b>10.666%</b>
	<b>Tier 1 Capital Ratio (Incl CCB)</b>		<b>10.666%</b>
	<b>Total Capital Ratio( CRAR) – Including CCB</b>		<b>13.516%</b>

(\*For market and operational risks capital charge is converted in RWA @ 12.50 to arrive at CRAR as per RBI guidelines. Details in DF7 and DF 8)

### TABLE DF-3: CREDIT RISK - GENERAL DISCLOSURES

#### Qualitative Disclosures

Credit Risk is defined as possibility of losses associated with diminution in credit quality of borrowers or counterparties. In a bank's portfolio, losses stem from outright default due to inability or unwillingness of a customer or counterparty to meet commitments in relation to lending, trading, settlement and other financial transactions.

#### **Organizational Structure for Credit Risk Management**

Bank has comprehensive credit risk management architecture. Board of Directors of Bank endorses its Credit Risk strategy and approves credit risk policies. The Board has formed committees to oversee risk management processes, procedures and systems. Risk Management Committee (RMC) is responsible for devising policy and strategy for credit risk management. For this purpose, committee co-ordinates with Credit Risk Management Committee (CRMC) of Bank. CRMC is responsible for overseeing implementation of credit risk management framework across Bank and providing recommendations to RMC.

#### **Policy & Strategy**

Bank has been following a conservative risk philosophy. The important aspects of risk philosophy are embodied in various policies, circulars, guidelines etc. The business objectives and strategy of Bank are decided taking into account profit considerations, level of various risks faced, level of capital, market scenario and competition. Bank is conscious of its asset quality and earnings and judiciously matches profit maximization with risk control.

Bank has put in place following policies approved by Board.

- i) Loan Policy
- ii) Credit Risk Management Policy
- iii) Credit Risk Mitigation Techniques & Collateral Management
- iv) Investment Management Policy and Investment Risk Management Policy
- v) Policy for Exposure to Real Estate
- vi) Policy for Issuance of Bank Guarantees

Loan Policy, Credit Risk Management Policy defines organizational structure, role and responsibilities and, processes and tools whereby credit risks carried by Bank can be identified, quantified and managed within framework that Bank considers consistent with its mandate and risk appetite. The policies prescribe various prudential and exposure limits, collateral standards, financial benchmarks for the purpose of credit risk management. The policy on Credit Risk Mitigation Techniques & Collateral Management lays down details of eligible collaterals for credit risk mitigation under Basel III framework. The Investment Management Policy and Investment Risk Management Policy, Policy on Exposure to Real Estate and Policy for issuance of Bank Guarantee forms an integral part of credit risk management.

### **Systems / Process / tools for Credit Risk Management**

**Credit Appraisal standards:** Bank has in place proactive credit risk management practices like consistent standard for credit origination, maintenance and documentation for all credit exposures including off balance sheet items. Systems of periodic reviews, periodic inspections and collateral management systems are in place.

**Exposure Limits:** Credit risk limits including single / group borrower limits, substantial exposure limits, exposure limits in respect of sectors / industries are in place. The exposure vis-à-vis the limits are monitored on a quarterly basis.

**Credit Approval Committees:** Credit Approval committees have been constituted at various levels covering very large branches / Zonal offices / Head Office for considering fresh / existing proposals with or without enhancement. Bank has also setup centralized processing cells at zonal level for considering credit proposals above specified limit.

**Sanctioning Powers:** Bank follows a well-defined multi-layered discretionary power structure for sanctioning of loans. Higher sanctioning powers are delegated to sanctioning authorities for sanctioning loans and advances to better rated customers in line with RBI guidelines. In respect of high value loans, committee approach is adopted.

**Credit Risk Rating and Appraisal Process:** Bank manages its credit risk through continuous measuring and monitoring of risks at each obligor (borrower) and portfolio level. Bank has in place an internal Credit Risk Rating Framework (CRRF) and well established standardized credit appraisal / approval processes. Credit risk rating enables Bank to accurately assess risk in a credit proposition and take a decision to accept or reject proposal based on risk appetite of Bank. It also enables risk pricing of credit facilities for risk return trade off.

As a measure of robust credit risk management practices, Bank has in place a framework for approval of credit risk ratings. Rating for every borrower is reviewed at least once in a year. Credit risk rating, as a concept, has been well internalized in Bank.

**Loan review Mechanism:** Objectives of Loan Review Mechanism are:

- i) To ensure that credit decisions by various authorities are in conformity with Bank's Loan Policy and delegated lending powers.
- ii) To ensure that stipulated terms & conditions of sanction are complied with and various post sanction follow up, monitoring and supervision measures prescribed by Bank are adhered to.
- iii) To ensure that all credit facilities are reviewed / renewed well in time so as to revise risk perception and take necessary corrective action if necessary, immediately.
- iv) To aim at achieving maintenance of standard assets quality and up gradation in non-performing assets (NPAs) so as to have a favorable impact on profitability of Bank through prevention / reduction / up gradation of NPAs.
- v) To assess health of credit portfolio of Bank and to apprise Top Management about the same from time to time.

Checks and balances viz. separation of credit risk management from credit sanctions, system of assigning credit risk rating, validation of ratings, mechanism to price credit facilities depending on risk rating of customer, credit audit etc. are in place. Minimum entry level rating benchmarks are stipulated. A suitable mechanism is in place to monitor aggregate exposure on other banks and country exposures. A diversified credit portfolio is maintained and a system to conduct regular analysis of portfolio so as to ensure ongoing control of credit is in place.

**Loans past due and Impaired:**

Regulatory guidelines are adhered to in respect of income recognition, asset classification and provisioning. Bank considers following categories of loans and advances as Non-performing Assets, wherein:

- Interest and/or installment of principal remain overdue for a period of more than 90 days in respect of a Term Loan
- Account remains 'out of order' in respect of an Overdraft/Cash Credit (OD/CC) for 90 days or more
- Bill remains overdue for a period of more than 90 days in case of Bills Purchased and Discounted
- In case of agricultural advances, interest and/or installment of principal remains overdue for 2 crop seasons (in respect of short duration crops) & 1 crop season (in respect of long duration crops).

- In respect of derivative transaction, if the overdue receivable representing positive mark-to-market value of a derivative contract, remains unpaid for a period of 90 days from the specified due date for payment.
- Any amount receivable that remains overdue for a period of more than 90 days in respect of other accounts.

**‘Out of Order’ status:** An account is treated as ‘out of order’ if the outstanding balance remains continuously in excess of sanctioned limit/drawing power. In cases where outstanding balance in the principal operating account is less than sanctioned limit/drawing power, but there are no credits continuously for 90 days as on date of Balance Sheet or credits are not enough to cover interest debited during same period, these accounts are also treated as ‘out of order’.

**Overdue:** Any amount due to Bank under any credit facility is ‘overdue’ if it is not paid on due date fixed by Bank.

Advances against term deposits, National Savings Certificates, Indira Vikas Patra, Kisan Vikas Patra and Life insurance policies need not be treated as NPAs, provided adequate margin is available in the accounts. Credit facilities backed by Central Government Guarantees though overdue may be treated as NPA only when the Government repudiates its guarantee when invoked. State Government guaranteed advances and investments in State Government guaranteed securities would attract asset classification and provisioning norms if interest and /or principal or any other amount due to the Bank remains overdue for more than 90 days.

The Bank follows extant RBI guidelines for NPA identification and for resolution of stressed assets, including classification and up gradation of restructured loans.

The Bank has granted moratorium towards the payment of principal and/or interest in case of certain borrowers in accordance with RBI circular dated March 27, 2020. The Bank makes general provision on such loans at rates equal or higher than requirements stipulated in RBI circular.

In accordance with the RBI circular dated March 27, 2020, the moratorium granted to borrowers is excluded from the determination of number of days past-due/out-of-order status for the purpose of asset classification. The moratorium granted to the borrowers is not accounted as restructuring of loan.

## TABLE DF-4 - CREDIT RISK DISCLOSURES FOR PORTFOLIOS SUBJECT TO THE STANDARDIZED APPROACH

### a. Qualitative Disclosures:

#### For portfolios under Standardised Approach:

Bank uses standardized approach to measure capital requirements for credit risk. As per Standardised Approach, Bank accepts rating of following RBI approved ECAI (External Credit Assessment Institution) for credit risk rating and has used these ratings for calculating risk weighted assets wherever such ratings are available.

1. Credit Rating Information Services of India Limited (CRISIL),
2. Credit Analysis and Research limited (CARE),
3. India Ratings,
4. ICRA Limited,
5. Brickwork,
6. ACUITE (Earlier SMERA)
7. INFOMERICS Valuation and Rating Private Limited

#### Types of exposures for which each agency is used:

Bank has used solicited ratings assigned by the above approved credit rating agencies for all eligible exposures. Bank has neither made any discrimination among ratings assigned by these agencies nor has restricted their usage to any particular type of exposure.

Key aspects of Bank's External Ratings application framework are as follows:

- Bank uses ratings assigned by any of these credit rating agencies as solicited and accepted by borrowers in line with RBI guidelines.
- Wherever available, Bank uses facility rating or bank loan rating for risk weighting borrower's exposures above Rs 5 crore. Where issuer rating is available Bank uses such ratings unless bank loan is specifically rated.
- When a borrower is assigned a rating that maps to a risk weight of 150%, then this rating is applied on all the unrated facilities of the borrower and risk weighted at 150%.
- RBI guidelines outline specific conditions for facilities that have multiple ratings. In this context, lower rating, where there are two ratings and second-lowest rating where there are two or more ratings are used for a given facility.
- While mapping/applying the ratings assigned by credit rating agencies, Bank is guided by Regulatory guidelines.
- As per RBI circular dated 25.08.2016, claims on Corporates, AFCs and NBFC – IFCs having aggregate exposure from banking system of more than Rs 100.00 crore which were rated earlier and subsequently have become unrated will attract a risk weight of 150%.
- As per RBI circular dated 25.08.2016 and their subsequent clarification dated 06.06.2019 all unrated claims on Corporates, AFCs and NBFC – IFCs having aggregate exposure from banking system of more than Rs 200.00 crore will attract a risk weight of 150% from FY 2019-20 onwards.
- As per RBI circular 22.02.2019, Risk weights for exposures to NBFCs, excluding Core Investment Companies (CICs) is risk weighted as per ratings assigned by the rating agencies in a manner similar to that of corporates.

- As per RBI circular 25.08.2016, additional risk weight of 75 percentage points over and above applicable risk weight for the exposure to the eligible specified borrowers is applied.
- As per RBI circular dated 12.09.2019, risk weight for consumer credit, including personal loans, but excluding credit card receivables is reduced to 100%.

#### Treatment of undrawn exposures:

As required by the regulatory norms, Bank holds capital even for the undrawn portion of credit facilities which are not unconditionally cancellable without prior notice by Bank, by converting such exposures into a credit exposure equivalent based on the applicable Credit Conversion Factor (CCF). For credit facilities, which are unconditionally cancellable without prior notice, Bank applies a CCF of zero percent on the undrawn exposure.

#### b. Quantitative Disclosures:

Exposure amounts as of 31.03.2020 after risk mitigation subject to Standardized Approach, amount of a Bank's outstandings (rated and unrated) disclosed under following major risk buckets:-

(Amount in Rs million)

Sr. No.	Particulars	Exposure Outstanding
i	Below 100 % risk weight	1444165.45
ii	100 % risk weight	194918.74
iii	More than 100 % risk weight	110340.66
	<b>sub total</b>	<b>1749424.85</b>
iv	Deducted CRM Value	67574.80
	<b>Total Exposure</b>	<b>1816999.65</b>

**TABLE DF-5 – CREDIT RISK MITIGATION: DISCLOSURES FOR STANDARDISED APPROACHES**

#### Qualitative Disclosures

- **Policies for Credit Risk Mitigation:**

Bank has a Board approved policy framework for collateral management and credit risk mitigation techniques, which include among other aspects guidelines on acceptable types of collateral, ongoing monitoring of collateral including frequency and basis of valuation and application of credit risk mitigation techniques.

- **Collateral Management**

Bank defines collateral as it is an additional security given, over and above primary security or in substitution thereof. It serves as an additional comfort to Bank for recovery of loans in default situations. At times, these securities are not connected to main business of the borrower or may not be owned by the borrower. Bank ensures that underlying documentation for collateral provides Bank appropriate rights over collateral

or other forms of credit enhancement including right to liquidate/retain or take legal possession of it in a timely manner in the event of default by counterparty.

- **Collateral Valuation**

As stipulated by RBI guidelines, Bank uses comprehensive approach for collateral valuation. Under this approach, Bank reduces its exposure to counterparty when calculating its capital requirements to the extent of risk mitigation provided by eligible financial collateral as specified in Basel III guidelines. Bank also applies appropriate haircuts. Bank has also put in place Loan Policy duly approved by Board, which lay down the types of securities normally accepted by Bank for lending, and administration / monitoring of such securities in order to safeguard/protect the interest of Bank so as to minimize risk associated with it. Both fixed and current assets obtained to secure loans granted by Bank as per policy prescription are subjected to valuation by outside valuers empanelled by Bank. In respect of high value of collateral, valuation from two or more valuers is obtained.

- **Description of main types of collateral taken by Bank**

For computation of capital requirement for Credit Risk, Bank recognizes only those collaterals that are considered as eligible for risk mitigation in RBI guidelines, which are as under:

- Cash Deposit with bank
- Gold, including bullion and Jewellery
- Securities issued by Central and State Governments
- Kisan Vikas Patra and National Savings Certificate
- Life Insurance Policies with a declared surrender value of an insurance company which is regulated by the insurance sector regulator
- Debt securities including Certificate of Deposit rated at least BBB,A3
- Units of Mutual Funds, where the investment is in instruments mentioned above

- **Main types of guarantor counterparty and their creditworthiness**

Wherever required Bank obtains personal or corporate guarantee as an additional comfort for mitigation of credit risk which can be translated into a direct claim on the guarantor which is unconditional and irrevocable. Bank also accepts guarantee given by State / Central Government/ECGC/CGTMSE/NCGTC as a security comfort.

- **Concentrations within Credit Risk Mitigation**

RBI guidelines, among its conditions for eligible credit risk mitigants, require that there should not be a material positive correlation between the credit quality of the counterparty and the value of the collateral being considered. The CRM (Credit Risk Mitigation)/ Guaranteed exposure are not subject to any market fluctuation and these exposures are well diverse. Currently, Bank does not have any concentration risk within credit risk mitigation.

**Quantitative Disclosures:**

(a). For each separately disclosed credit risk portfolio total exposure (after, where applicable, on or off balance sheet netting) that is covered by eligible financial collateral after application of haircuts.

(Amount in Rs million)

	<b>31.03.2020</b>
Total exposure (after, where applicable, on or off balance sheet netting) that is covered by eligible financial collateral after application of haircuts	67574.80

(b) For each separately disclosed portfolio total exposure (after, where applicable, on- or off-balance sheet netting) that is covered by guarantees/credit derivatives (whenever specifically permitted by RBI)

(Amount in Rs million)

	<b>31.03.2020</b>
Total exposure that is covered by Guarantees	23527.02

**TABLE DF-6 SECURITIZATION EXPOSURE**

**Qualitative Disclosures:**

The Bank does not have any case of securitization of its assets as on 31<sup>st</sup> March 2020.

**Quantitative Disclosures:**

Quantitative Disclosure for Securitization Assets is **Not Applicable**.

**TABLE DF-7 MARKET RISK IN TRADING BOOK**

**Qualitative Disclosures:**

**Market Risk:**

Market Risk is defined as the possibility of loss to a bank caused by adverse movements in market variables such as interest rates, foreign currency exchange rates, equity prices and commodity prices. Bank's exposure to market risk arises from domestic investments (interest related instruments and equities) in trading book (both AFS and HFT categories), Foreign exchange positions. Bank is not trading in commodities. The objective of the market risk management is to minimize impact of losses on earnings and equity arising from market risk.

**Policies, strategies and processes for management of Market Risk**

Bank has put in place Board approved Investment Management Policy and Investment Risk Management Policy, Market Risk Management Policy and Asset Liability Management (ALM) Policy for effective management of market risk. The above policies lay down well-defined organization structure for market risk management functions and processes whereby market risks carried by Bank are identified, measured, monitored and controlled within policy framework consistent with Bank's risk tolerance. Policies deal with reporting framework for effective monitoring of market risk and also set various risk limits such as Overnight Limit,

Intra-day limit, Aggregate Gap limit, Stop Loss limit, VaR limit etc. Exposure limits are set for counterparty banks and exposures are monitored on daily basis.

ALM Policy deals with liquidity risk and interest rate risk management framework. Bank has put in place mechanism of short term dynamic liquidity management and contingency plan for liquidity management. Prudential (Tolerance) limits are set for different residual maturity time buckets for efficient asset liability management. Bank's contingency plan for liquidity management comprises various contingent measures to deal with any kind of stress on liquidity position. Bank has put in place Board approved Stress Testing Policy and conducts periodic stress tests on liquidity risk, interest rate risk and foreign exchange risk.

Asset Liability Management Committee (ALCO) / Board monitors adherence of prudential limits fixed by Bank and determines strategy in light of market conditions. Dealing room activities are centralized and system is in place to monitor dealing room activities. Mid-Office at Treasury & International Banking Department (TIBD) also monitors adherence of prudential limits on a continuous basis.

Interest rate risk is monitored through use of Gap Analysis of rate sensitive assets and liabilities. Bank has also put in place Duration Gap Analysis framework for management of interest rate risk. Bank estimates Earnings at Risk (EaR) and Modified Duration Gap (DGAP) periodically against adverse movement in interest rate for assessing impact on Net Interest Income (NII) and Economic Value of Equity (EVE).

Market Risk Management Policy - To ensure that Bank's operations are in line with Management expectations of return vis-à-vis market risk, it is crucial that Bank has a defined set of principles and processes in place for articulating how it plans to manage market risks it faces, in Trading or Banking Book.

Bank's Market Risk Management Policy aims to set out broad outlines of processes by which market risks carried by Bank shall be managed i.e. identified, measured, controlled and monitored in such a way that risk taken is within the approved risk tolerance limits. The scope of this policy covers market risks arising from Bank's "Trading book" and investment portion of "Banking book".

#### Quantitative Disclosure:

Capital requirement for Market Risk is as under:

(Amount in Rs million)

Risk Category		31.03.2020	
		Risk Weighted Assets	Capital Charge
i	Interest Rate Risk	46343.38	3707.47
ii	Equity Position Risk	11021.63	881.73
<b>Total capital charge for market risks under standardized duration approach (i+ii+iii)</b>		<b>57365.01</b>	<b>4589.20</b>

## TABLE DF-8 OPERATIONAL RISK

### Qualitative disclosures:

#### Operational risk:

Operational Risk is risk of loss resulting out of inadequate or failed internal processes, people and systems or from external events. Operational risk includes Legal risk but excludes Strategic and Reputation Risk.

#### Policies on management of Operational Risk:

Bank has framed Operational Risk Management Policy in line with RBI Guidelines. Other policies which deal with management of operational risk are (a) Information System Security Policy, (b) Business Continuity Planning Policy, (c) Compliance Policy, (d) Outsourcing Policy and (e) Fraud Risk Management Policy.

**Strategies and processes:** Operational Risk Management process of Bank is driven by a strong organizational culture and sound operating procedures, involving corporate values, internal control culture, effective internal reporting. Policies are put in place for effective management of Operational Risk in Bank.

Bank has been constantly reviewing legal documents to ensure that legal documents are comprehensive and enforceable. As a measure of risk mitigation, Bank has obtained insurance cover for all assets owned by Bank. It is also ensured that assets financed by Bank are also adequately insured, as a risk mitigation measure. The operational risk management policy outlines organization structure and detail processes for management of operational risk. Basic objective of policy is to closely integrate operational risk management system into day-to-day risk management processes of Bank by clearly assigning roles for effectively identifying, assessing, monitoring and controlling / mitigating operational risks and by timely reporting of operational risk exposures including material operational losses.

There has been an increasing threat perception from Information Technology related risks and risks from external events and hence Bank has put in place 'Information System Security Policy'. Business Continuity Plan duly approved by the Board is also put in place. Training on Key Risk Indicators (KRI) & Risk Control & Self Assessment (RCSA) is given to the officers of the concerned functional departments on an ongoing basis.

Operational risks in Bank are managed through comprehensive and well-articulated internal control framework.

#### Approach adopted for capital charge computation for operational risk:

Bank is following Basic Indicator Approach (BIA) for calculating capital charge for Operational Risk. Bank has received approval for migration to 'The Standardized Approach' (TSA) for calculating Operational Risk Capital Charge as a parallel run. However, Bank has been allowed to maintain capital charge as per Basic Indicator Approach (BIA) for regulatory purpose.

**Quantitative Disclosure:**

Capital charge for Operational Risk under Basic Indicator approach is **Rs 7473.19 Million.**

**TABLE DF-9 INTEREST RATE RISK IN THE BANKING BOOK (IRRBB)**

**Qualitative Disclosures:**

**Interest Rate Risk in the Banking Book:**

Interest Rate Risk in Banking Book (IRRBB) refers to potential adverse financial impact on Bank's Banking Book from changes in interest rates. The assumptions regarding loan prepayments and behaviour of non-maturity deposits are also taken care of. Interest rate risk is measured and monitored through two approaches.

**(i) Earnings at Risk:** Impact on income (Earning Perspective) is measured through use of Traditional Gap Analysis by applying notional rate shock (parallel shift in interest rates across assets and liabilities) upto 100 basis point (bps) for a period of one year.

**(ii) Economic Value of Equity (Duration Gap Analysis):** Bank has adopted Duration Gap Analysis for assessing impact (as a percentage) on economic value of equity (Economic Value Perspective) in line with the method suggested by RBI.

Impact on Economic Value of Equity is analysed for a 200 bps rate shock as indicated by RBI. The Economic Value of Equity is measured and monitored on a monthly basis.

**Quantitative Disclosure Earning at Risk (As per Traditional Gap):**

(Amount in Rs. Million)

Change in Interest rate	Parallel shift of 100 bps for 1 Year period	
	31.03.2020	
	(+) 100 basis point	(-) 100 basis point
Impact on Net Interest Income	2713.41	-2713.41

**Economic Value of Equity (As per Duration Gap):**

Impact on economic value of equity	31.03.2020	
	(+) 200 basis point	(-) 200 basis point
		5322.30

**TABLE DF-10: GENERAL DISCLOSURE FOR EXPOSURES RELATED TO COUNTERPARTY CREDIT RISK**

**Qualitative Disclosures:**

Bank is participating in derivative market as a user to hedge risk of underlying exposure of its own and that of its customers. Keeping in view business composition of Bank, nature and mix of clients, capital requirement as also risk appetite, Bank is dealing in following derivative products:

- Currency futures

- Foreign Exchange Forward contracts and currency swaps.
- Interest Rate Swaps – OIS & IRS.

Bank at present is not undertaking transactions under Credit Default Swaps and Currency options.

Measurement and management of various risks is ensured by setting up various limits such as counter party limits, stop loss limits, Day light Limits, Overnight limit, Stop Loss Limits and exposure limits etc. at various levels. Utilization of such limits would be subject to guidelines of Investment Management Policy and RBI/SEBI/Exchanges.

From exchange side, limits stipulated are (1) initial margin (2) mark to market margins (3) open interest. Bank is complying with these limits.

In respect of currency futures transactions, Bank is maintaining account with exchange approved Bank for purpose of clearing and settlement of transactions and also maintains margin in the form of cash/bank deposits/bank guarantees/ G-Sec or any other approved securities.

Purpose of booking forward contracts is to hedge an exposure to exchange risk in respect of transaction for which sale and/or purchase of foreign exchange is permitted under FEMA 1999. Bank offers to its customers, forward contract as a product for hedging their foreign currency exchange risk.

Bank is doing IRS/FRA deals only with those counterparty banks which have executed ISDA Master agreement/CSAs and for whom Bank has set up counterparty exposure limits. Bank has made requisite provision on credit exposure of derivative contracts computed as per current exposure method & as per RBI guidelines and Investment Management Policy.

- Bank will describe methodology and will assign economic capital for counter party credit exposure, as and when Bank migrates to Advanced Approach of measurement of Risk and related Capital requirement.

#### (a) Quantitative Disclosures

(Amount in Rs. million)

Sr. No.	Particulars	31.03.2020

**TABLE DF 14 – FULL TERMS AND CONDITIONS OF REGULATORY CAPITAL INSTRUMENTS**

DF 14 is available on the Bank’s website [www.bankofmaharashtra.in](http://www.bankofmaharashtra.in) under the line “Basel III Disclosures”

**TABLE DF – 15: DISCLOSURE REQUIREMENT FOR REMUNERATION**

**Quantitative and Qualitative Disclosures: Not Applicable**

**TABLE DF – 16: EQUITIES: DISCLOSURE FOR BANKING BOOK POSITIONS**

**Qualitative Disclosure:**

General qualitative disclosure requirement with respect to Equity Risk.

- In accordance with RBI guidelines and in line with Bank’s Investment Management Policy on investment classification and valuation, Investments are classified on the date of purchase into “Held for Trading” (HFT), “Available for Sale” (AFS) and “Held to Maturity” (HTM) categories. Investments which Bank intends to hold till maturity are classified as HTM securities.
- Investments in equity of subsidiaries and joint ventures are required to classify under HTM category in accordance with RBI guidelines. These are held with a strategic objective to maintain strategic relationships or for strategic business purposes.
- Investments classified under HTM category are carried at their acquisition cost and not marked to market. Any diminution, other than temporary, in the value of equity investments is provided for. Any loss on sale of investments in HTM category is recognized in the Statement of Profit and Loss. Any gain from sale of investments under HTM category is recognized in the Statement of Profit and Loss and is appropriated, net of taxes and statutory reserve, to “Capital Reserve” in accordance with the RBI Guidelines.
- As per RBI guidelines, Bank is allowed to hold investments in units of Venture Capital Fund (VCF) under Banking Book (HTM category) for initial period of 3 years and valued at cost during this period.

**Quantitative Disclosures**

**1. Value of Investments**

(Amount in Rs million)
