Accordingly, the Bonds will be permanently written-down in full prior to any reconstitution or amalgamation.</p> <p>PONV Trigger Event, in respect of the Issuer or its group, means the earlier of:</p> <ul style="list-style-type: none">(i) a decision that a conversion or principal write-down, without which the Issuer or its group (as the case may be) would become non-viable, is necessary, as determined by the RBI; and(ii) the decision to make a public sector injection of capital, or equivalent support, without which the Issuer or its group (as the case may be) would have become non-viable, as determined by the RBI; <p>However, any capital infusion by Government of India into the Issuer as the promoter of the Issuer in the normal course of business may not be construed as a PONV trigger.</p> <p>A write-down due to a PONV Trigger Event shall occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted.</p> <p>The Basel III Guidelines state that, for this purpose, a non-viable bank will be a bank which, owing to its financial and other difficulties, may no longer remain a going concern on its own in the opinion of the RBI unless appropriate measures are taken to revive its operations and thus, enable it to continue as a going concern. The difficulties faced by a bank should be such that these are likely to result in financial losses and raising the Common Equity Tier 1 Capital of the bank should be considered as the most appropriate way to prevent the bank from turning non-viable. Such measures would include a permanent write-off in combination with or without other measures as considered appropriate by the RBI.</p> <p>A bank facing financial difficulties and approaching a point of non-viability shall be deemed to achieve viability if within a reasonable time in the opinion of the RBI, it will be able to come out of the present difficulties if appropriate measures are taken to revive it. 				<p>below 5.5%; or</p> <p>(ii) if calculated at any time from and including March 31, 2019, at or below 6.125%,</p> <p>(the “CET1 Trigger Event Threshold”);</p> <p>Common Equity Tier 1 Ratio means the Common Equity Tier 1 Capital (as defined and calculated in accordance with the Basel III Guidelines) of the Issuer or its group (as the case may be) expressed as a percentage of the total risk weighted assets (as defined and calculated in accordance with the Basel III Guidelines) of the Issuer or its group (as applicable);</p> <p>The purpose of a write-down on occurrence of the CET1 Trigger Event shall be to shore up the capital level of the Issuer. If the Issuer or its group breaches the CET1 Trigger Event Threshold and equity is replenished through write-down of the Bonds, such replenished amount of equity will be excluded from the total equity of the Issuer for the purpose of determining the proportion of earnings to be paid out as dividend in terms of rules laid down for maintaining the capital conservation buffer (as described in the Basel III Guidelines). However, once the Issuer or its group (as the case may be) has attained a total Common Equity Tier 1 Ratio of 8% without counting the replenished equity capital, from that point onwards, the Issuer may include the replenished equity capital for all purposes.</p>
