Bank of Maharashtra Rejig its ATM Operations

Bank of Maharashtra, A leading Public Sector Bank, had recently acquired its own ATM Switch and revamped the entire array of e-products offered through ATMs.

The New Switch enabled them to introduce following Value Added customer centric products through their ATMs.

- Intra-Bank Card to Card funds transfer
- Intra-Bank Card to account transfer
- Utility Bill Payment of major merchants
- Register for new account Opening
- Registration for loan facility

The switch acquired by the Bank manages the existing 1850 ATM net work of the Bank and help them in further expansion at faster pace. Many more customer centric products on ATMs are in offing.

Bank has already implemented “MAHA SECURE” product for the customers of the Bank enabling them to do their transaction in a more secured way.

Bank is also on the verge of providing latest Mobile Banking platform for its all customers enabling them freedom to do banking on move. The proposed solution is interoperable on all kinds of mobile devices including Android, IOS and Blackberry etc. The state of the art technology being used by the Bank would help the Bank better serving the customers.
